This Book is brought to you for free and open access by the Eastern Washington University Digital History Collections at EWU Digital Commons. It has been accepted for inclusion in Student Recruiting and Handbooks by an authorized administrator of EWU Digital Commons. For more information, please contact jotto@ewu.edu.

Eastern Washington State College
CHENEY, WASHINGTON

Eastern Washington State College is an integral part of the public system of higher education supported by the State of Washington. It is governed by a Board of Trustees appointed by the Governor and confirmed by the Senate.

A coeducational institution, Eastern Washington State College is accredited by both the Northwest Association of Secondary and Higher School, and the professional National Council for Accreditation of Teacher Education. The former accreditation affords national status and the latter accreditation provides professional approval for the preparation of teachers, administrators and guidance personnel. Eastern is also approved and recognized by the American Council of Education and the American Association of University Women.

Although the majority of students list the Inland Empire Region as home, the student body does contain a number of non-quota immigrant students and there are representatives from most of the major areas of the United States.

Eastern Washington State College's history dates from 1882 when it was founded as the Benjamin P. Cheney Academy. In 1890, it became Cheney State Normal School; in 1933 Cheney Normal was authorized to grant the Bachelor of Arts in Education Degree. In 1937 the name was changed to Eastern Washington College of Education. In 1947 the college was empowered to grant the Bachelor of Arts and the Master of Education Degrees, and in 1961 its name became Eastern Washington State College. The changes in name reflect the changing and augmented role of the college as it has moved from a strictly teacher training institution to one offering fine programs in the liberal arts and sciences as well as adding a Master of Education degree.

A multipurpose college, Eastern serves the following functions:

1. The professional preparation of teachers, administrators and specialized personnel for the schools of the state.
2. The education of students in the Arts and Sciences.
3. The offering of pre-professional programs in different career and professional areas.
4. Providing a general education curricula.
5. The offering of a two-year secretarial program

The rapid growth of Eastern Washington State College has mirrored society's expanding demands in higher education in general, and the needs of the State of Washington in particular. Considering those needs and demands, the central aim of Eastern Washington State College is to encourage young people to think as do people of action and to act as people of thought.

This brochure is designed to answer questions asked by the prospective student and his parents, who as Washington state taxpayers, have a very real interest in Eastern, its function, its purpose and its accomplishments.

MARTIN HALL

THE CAMPUS

The college holds title to 116 acres of land located at Cheney, population 4,000. The expanding campus presently includes five residence halls; a housing unit for married students; a Fieldhouse; a Library; a Campus Elementary School; a Music Building; a Reserve Officers Training Corps classroom building; a Science Building; Martin Hall; a Music Building; an Industrial Arts Building, and Showalter Hall, a classroom and administration building. Under construction are a residence hall and a food center.

Visitors may enter the campus through "The Pillars," a campus landmark constructed of stones from the former Administration Building, destroyed by fire in 1912. Other campus land-

marks include "Hello Week," where students, faculty, and visitors are expected to greet each other with a friendly hello, and "Kissing Rock," where many EWSC couples have become engaged.

Many of Eastern's traditions may be traced back to Indian origin. The lower retunda of Showalter Hall contains a statue of Sacajawea. Each year a senior co-ed is selected by her classmates, is named Sacajawea, and acts as the official hostess for the college. A senior traditional ceremony, "Passing the Arrow," signifies the end of a college career for the graduating class. Eastern Washington State College athletic teams are called the Savages.

Martin Hall provides office and classroom space for the Division of Education and Psychology. Martin Hall and the Campus Elementary School give this Division a fine physical plant in which to work.

The Science Building provides modern facilities for study and research. The Division of Science maintains its offices in this building.

The Music Building contains a studio amphitheater used for rehearsals by the many

MUSIC HALL

fine choral organizations, the Symphonic Band and the College Symphonic Orchestra. In addition, it includes instrumental and vocal practice rooms, the music library and the office of the Division of Creative Arts.

Eastern's campus is attractive and well-kept. The lawns are dotted with trees, some of them rare species. During the winter months the campus is often blanketed by snow.

CAMPUS

SHOWALTER HALL

Academic and Administrative center of the college is Showalter Hall. Built in 1914, Showalter is surrounded by an expanse of lawn and trees. Every student at Eastern finds reasons to become familiar with this building. The rotundas are favorite places for breaks between classes and on special occasions are used for all-college dances. Its auditorium-stage provides facilities for convocations at which scholars and artists are featured. Many of the college plays and concerts are presented in the auditorium. The administrative offices of the college are to be found in Showalter Hall.

"GETTING AN EDUCATION"

A student's primary purpose in attending college is "to get an education." But what is an education? For one student it means training in biological science, for another it means the study of literature, for another music; one stu-

dent intends to teach elementary school children, one wants to coach, another wants to concentrate on secretarial work. An increasing number of students do plan to continue their studies in a graduate school—medicine, law, dentistry. The faculty at Eastern is continually seeking to provide curricular offerings to meet an ever-increasing range of educational goals.

Academic achievement is the student's first objective. The pursuit of this objective takes him into the classroom, into the laboratory, to the library, on field trips, and it takes him to his study desk in his residence hall, his apartment, his home, his trailer, or wherever the student lives. An Eastern student may engage in a great variety of activities related to his major field. These activities give him the chance to gain insight into the career for which he is training.

IN THE MIDDLE OF THE
YEAR?**

**IS A DAY SET ASIDE DURING THE
COLLEGE YEAR WHEN PROSPECTIVE
STUDENTS MAY VISIT THE CAMPUS?**

**WHAT IS THE PURPOSE OF
ORIENTATION WEEK?**

HOW ABOUT HOUSING?

The prospective student should complete the standard application form available at any Washington State high school or from the Admissions Office, EWSC, Cheney, Washington. Students with previous college training should write to the Admissions Office for a transfer application form. Transcripts for all students must be on file at EWSC before registration will be permitted.

(1) Applicants must have been graduated from an accredited high school. (Note: Prospective students who are 21 years or older may be granted provisional admission. Applicants in this category will be considered on an individual basis.)

(2) Applicants who are residents of the State of Washington, who have maintained a grade point average of 2.00 (C) or better in high school or previous college work, will be admitted with clear standing.

(3) Residents with a g.p.a. below 2.00 (C) may apply. These applicants will be considered on an individual basis; those admitted may find that the college has made certain stipulations relative to their admission.

(4) Students from out-of-state must have been graduated from an accredited high school with a grade point average of 2.25 (C+) or better to be considered for admission to EWSC.

Yes. All entering students, except those transfer students who have earned 36 or more quarter credits, must take the Washington Pre-College Test Battery before they will be allowed to register. Results of this test are used in counseling the student. In addition, all new students must file a complete medical report. For additional information, write the Admissions Office.

Eastern is on the quarter system and a student may enroll at the start of any one of the four quarters — fall, winter, spring or summer, provided he meets entrance requirements.

No. However, students are encouraged to visit the campus as individuals. Contact the Admissions Office which will arrange the necessary interviews and provide information.

Orientation for all new students, entering freshmen and transfers, precedes fall quarter registration. During this time the new student confers with his faculty adviser, becomes acquainted with student leaders and learns his way around the campus.

(1) Students who wish to live on campus should send a letter to the Dean of Students stating his residence hall preference and, if desired, roommate preference. A \$10 room deposit is required.

(2) Married student housing is available on a limited basis. Application is made in the same manner as a request for residence hall space. The Dean of Students maintains a list of off-campus housing for the information of interested students.

HOW MUCH DOES IT COST TO ATTEND EWSC?

(All fees subject to change without notice.)

Tuition and fees for Washington State resident students are \$73 per quarter. Non-resident students pay an additional \$30 per quarter tuition charge.

Room and board costs \$193 per quarter.

On the basis of a three-quarter college year, fees and tuition cost \$219. Living in one of the college residence halls will cost \$579, a total of \$798. Non-resident students must pay \$90 more per year in tuition charges.

In addition, books and supplies will cost about \$25 per quarter.

These charges are exclusive of personal expenditures.

The college operates on a four quarter a year basis; students interested in such a program should add expenses for a fourth quarter.

WHAT ABOUT FINANCIAL ASSISTANCE?

A fine financial aids program is offered at EWSC. Information and application forms may be obtained from the office of the Dean of Students.

ARE PART-TIME JOBS AVAILABLE?

Part-time work is available at Eastern on a limited basis. A full-time student may not work more than 80 hours a month. A high percentage of the students at Eastern are working their way through college. For information on part-time work on the campus, students should write to the Director of Personnel.

ARE STUDENTS' WIVES EMPLOYED?

The college does employ students' wives on a full-time basis as secretaries, typists and clerks in the school's administration and department offices. For information concerning this type of employment application should be made to the Director of Personnel.

To the Admissions Officer, Eastern Washington State College, Cheney, Wash.

Many student organizations provide opportunities for the student to use what he learns in the classroom and from the textbook and to apply this knowledge to his everyday campus life. The political science major, for instance, may be active in both a political party organization and the International Relations Club; the music major may belong to one of the national music honoraries on campus; the education major will be interested in the activities of the student WEA. The scholastically gifted student will investigate the Honors program; this offers both an enriched and an accelerated curriculum. The EWSC student will find a group of students who share his interests and these groups attempt to further their ideas and knowledge through membership in college sponsored groups. Such groups provide for an exchange of ideas and also provide opportunities for leadership training.

WHAT IS MILITARY SCIENCE?

Military science is a four-year program which may terminate in a commission as an officer in the United States Army. The first two years (Basic Course) are required of all eligible male students. The last two years (Advanced Course) are both elective and selective, on the part of the student and the Division of Military Science.

A MILITARY SCIENCE CADET MAY IF QUALIFIED AND INTERESTED:

- Obtain a draft deferment until graduation.
- Enlist in the Army Reserve in the grade E4 after completing the Basic Course.
- Participate in a wide variety of social activities.
- Receive a total of \$652.00 if selected for the Advanced Course.
- Receive a commission in any branch of the United States Army for which qualified.

ACTIVE AND ATTRACTIVE SPONSOR CORPS
PROVIDES COLORFUL ACTIVITIES
FOR OUR CO-EDS, TOO.

HOW ABOUT ATHLETICS?

Known as the Savages, Eastern Varsity teams compete in the Evergreen conference. The conference comprises eight colleges and universities. Major sports include football, basketball, track, baseball, swimming, and tennis. In addition, the college has an intercollegiate rifle team and a gymnastics team. For information write to the Director of Athletics, EWSC, Cheney, Washington.

Students not taking part in the varsity or junior varsity program often join one of the intramural teams. The year-long intramural league competition is open to all students and includes football, basketball, track and softball.

WHAT ABOUT THE PHYSICAL EDUCATION PROGRAM?

Eastern has excellent programs in physical education for both the regular and the professional student. The service or activity program for the regular student emphasizes individual health and physical fitness and each student is evaluated and counseled into courses best suited to meet his or her particular needs in this area as well as the recreational interests of the student. Course offerings in this program include: Apparatus, basketball, body mechanics, fundamental gymnastics, handball, progressive weight training, soccer, rugby, tennis, track, tumbling, trampoline, volleyball, wrestling, archery, badminton, dance, etc.

For the professional student, programs are available that will qualify the individual for professional positions such as: Elementary school physical education teacher, secondary school physical education teacher, director of high school athletics, supervisor of health and physical education, community recreation and playground director, major and minor sports coach, corrective therapy specialist in hospitals and other allied positions.

Change of Pace

An Eastern Washington State College student's primary task is to complete his course of study, but students need the change of pace which allows relaxation and gives new energy to the task.

On the Eastern campus, the hard-working student finds the time, the companions and the place for relaxation. It may be a cup of coffee between classes in the Student Union, a campus mixer, a swim in the college pool, a not-very-expert game of ball on a dorm lawn or the traditional college "bull session" with fellow students.

Extracurricular activities are here, too. An activity exists for every student, whatever his interests, his ability or talent. The student newspaper and yearbook, the college plays, the college radio station, the intramural sports leagues, the college athletic teams, the campus debate groups, the college band and choir, student government — these are only a few of the extracurricular activities which are open to all students at Eastern. There is a speech club, an art club, a PE club, a ski club, a service club, a number of scholastic clubs, a club for every student no matter what his interests and talents.

WHAT DEGREES DOES EASTERN OFFER?

The college now offers three degrees: The Bachelor of Arts, the Bachelor of Arts in Education and the Master of Education.

IN WHAT FIELDS OF STUDY MAY A STUDENT MAJOR?

Bachelor of Arts in Education Degree

Art
Biology

DOES EASTERN OFFER A JUNIOR COLLEGE PROGRAM?

A junior college program in arts and sciences, secretarial science and stenographic training is available to those students who intend to terminate their college training at the end of two years.

WHAT PRE-PROFESSIONAL FIELDS ARE TAUGHT AT EASTERN?

Courses for the pre-professional student are available in several fields.

They include:

- Agriculture
- Architecture
- Bacteriology and Public Health
- Dentistry
- Engineering
- Forestry
- Law
- Medicine
- Pharmacy
- Veterinary Medicine

HOW MANY HOURS DOES THE FULL-TIME EASTERN STUDENT SPEND IN CLASS EACH WEEK?

The first-year student averages five courses a quarter and is in class 16 to 18 hours a week.

APPROXIMATELY HOW MANY HOURS A DAY DOES A STUDENT STUDY AT EWSC?

On the average, Eastern students are expected to spend at least two hours studying outside of class for every hour spent in class.

Eastern provides a fine guidance and counseling service to each of its entering freshmen. Every effort is made to see that the student is enrolled in a program of studies which will best meet his needs.

In most cases, first-year programs follow a pattern of courses designed to meet the general requirements of the college. Listed below is an outline of a freshman program similar to that taken by many first-year students. The elective hours enable a student to explore the academic offerings at Eastern.

1st Quarter		2nd Quarter		3rd Quarter
